

# ARE YOU AGED 50-74?

If so, you are at risk for Colorectal Cancer

**COLORECTAL CANCER IS THE THIRD MOST  
DIAGNOSED TYPE OF CANCER IN CANADA**

**SAFE AND EFFECTIVE TESTS ARE AVAILABLE**

**If Caught Early:**

- Most people recover fully after treatment
- Your cancer is less likely to spread
- You may have more options to treat your cancer

**Ask your healthcare provider about a  
Colonoscopy or a Fecal Occult Blood Test  
(FOBT) today**
